

## **INTRODUCTORY REMARKS**

The earlier document filed with the Patent and Trademark Office entitled, "Response To March 4, 2004 Office Action", has been rejected as being a non-compliant amendment. The basis of this rejection was explained to be that the claims where shown but there was not a specific item showing the cancelled claims within the body of the claims text. Below is a substitute section entitled "Amendments To The Claims" that presents the previous claims and includes the listing of the cancelled claims within the body of the claims listing. It is believed that this fully rectifies the rejection.
